

## Front and side view

- A Image height
- B Image base
- E Total fabric base
- F Casing length
- G Casing depth
- H Casing height

The Mini screen is a mobile screen, ultra light and very easy to use. It is dedicated to pico projectors and can be installed on a table.

- The black anodised aluminium casing combines lightness and quality finish.
- The fabric is tensioned thanks to a upright placed at the back of the casing.
- Easy to open in few seconds. It will be your partner in any circumstance.
